I. W. SCOTT & CO.'S
Special Price List of Seeds.

REMARKS TO PURCHASERS.

SEEDS BY MAIL.—Sending Seeds by mail is a very important branch of our business, and we are fully prepared to fill all orders promptly and correctly, as this department is under the supervision of one having had many years experience in this particular line. The postage is but 8 cents per pound, and our customers living at a distance from a railroad station will find this a convenient and safe way to get what Seeds they want. For Peas, Beans and Corn add 15 cents per quart to prices quoted.

REMITTANCES can be made by post office order, bank draft, registered letter, express company's money order, or by express.

SHIPPING INSTRUCTIONS.—When goods are to be shipped by freight or express, give plain shipping instructions. Otherwise we use our own judgment in this matter.

ORDER EARLY.—Please send or bring in your orders as soon as possible after you receive this list, as our stock will be complete, and you will be sure to get what you want, and what is still of more importance, you will have the Seeds on hand when you need them.

TERMS.—Parties unknown to us will please send money as above stated, or satisfactory reference with order.

CARD.

While we exercise the greatest care to have all seeds pure and reliable, we do not give any warranty express or implied. If the purchaser does not accept the seeds on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

Garden Seeds

FOR MARKET GARDENERS.

FLOWERING SWEET PEAS.

Used Only for Ornamental Purposes.

The Sweet Peas, as respects size, texture, diversity of colors, shades, and phenomenal production of blooms and perfume, has in the last few years jumped to the first place among the sweet smelling plants. So productive is it that single plants have been known to have borne over 1,000 sprays of flowers. No praise can be too high for the Sweet Pea. It is the fashionable flower now and upon its rare development in beauty, ranging from deepest purple to pure white, and in perfume fragrant as mignonette.
